

Remanufactured Engines

British Pacific offers completely remanufactured engines custom made to your specification. These are high quality rebuilds with a new head, valves, timing components, cam, pistons, rings, bearings and more. Each engine is professionally rebuilt to the highest standards to your specification. **There are None better!**

Please contact us with your needs for a price quote.

Camshafts

2.5L grind

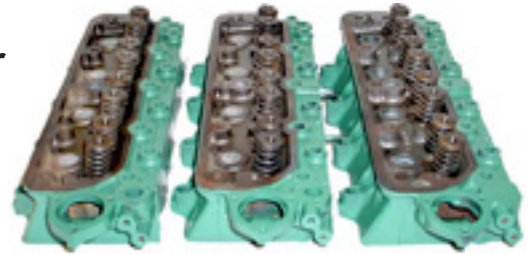

This cam fits 2.25L engines and provides improved performance across the board. It's tough to beat. ETC7128

Remanufactured Differentials

British Pacific offers remanufactured differentials that come with all new ring and pinion gears, new bearings and new seals. Everything is set up and ready for you to install. You may special order your differential with a different ratio ring and pinion gears. No exchange required. FRC7778R

Cylinder Heads

8:1 head

We have new cylinder head castings, built to Rover's latest specification and set up for unleaded gas. The head fits all Series IIA and III 2.25L engines and comes either 'bare' or with new hardened valves and springs installed.

Bare head
Complete new head
Rebuilt used head
(core charge applies)

LDF109300
LDF109300C
LDF109300R

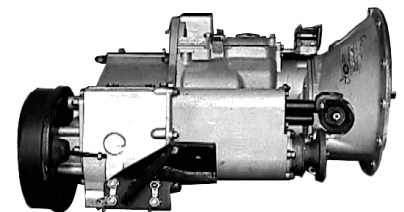

Custom high compression head (Up to 9.25:1)

This a new 2.5L head that has been performance modified to any compression ratio up to 9.25:1, and is set up for unleaded gas. This head fits all Series IIA and Series III 2.25L engines and provides improved torque and power clear across the RPM range. The head comes completely assembled with all new hardened valves, valve seats and performance springs. Actual compression depends upon bore size. Give us the piston size of your engine(std, .010, .020, .030 or .040) and the compression ratio that you want and we will build a performance head to meet your needs.

Note:

New Land Rover 2.25 heads are threaded for metric bolts and studs. The hardware kit that used to be supplied for this is no longer available. You cannot use the studs out of your old head unless it is the metric style.

Remanufactured Transmissions and Transfer Cases

British Pacific offers both Series IIA and series III transmissions that have been completely remanufactured and are ready to bolt in. Remanufactured transfer cases available separately or with the transmission in stock or high ratio configurations.

Series IIA transmission 607125N
Series III transmission RTC2705R
