

Carburetors and Gaskets

Solex - Fitted Series II, IIA through 1967

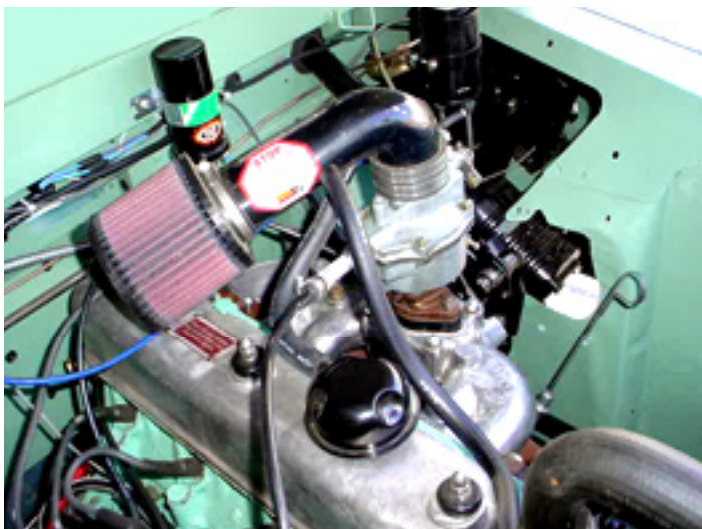

We no longer stock Solex repair parts. When your Solex is no longer serviceable we suggest replacing it with a new Zenith (as fitted to later Series 2.25's) or a rebuilt Rochester 1V carburetor. We also carry Weber 1 barrel replacements.

Zenith - original equipment fitted to 1968 and newer

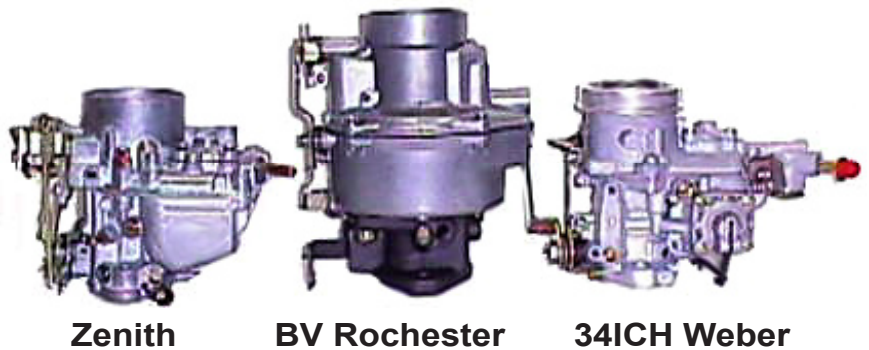

New carburetor (non emissions type)	ERC2886Z
Overhaul kit	605092P
Jet, high altitude, .175 (3000' - 5000')	605684
Jet, high altitude, .120 (5000' & above)	605683
Insulator block, phenolic	278162
Gasket, insulator block (2 req)	273163

341CH Weber (one barrel)

341CH Weber kit	ERC2886W
(if replacing Solex, requires adaptor plate and gaskets shown at right)	
Overhaul kit	92028605
Main Jets	73801+jet size

Rochester conversion with K&N air filter

Zenith

BV Rochester
