| OEM | RTC3426G |
| Aftermarket | RTC3426P |
| 7 Bearing & race, outer hub to Oct 1980 on | |
| OEM | RTC3429 |

Wheel Bearing Adjusting Hardware

All models
front & rear

- | | |
|------------------|---------|
| 1 Key washer | 217352 |
| 2 Hub nut | FRC8700 |
| 3 Locking washer | 217353 |

Note: To adjust the wheel bearings without a dial indicator, tighten down the inner hub nut to remove any slack from the bearings then back off two flats of the nut. Check that the hub turns smoothly with little to no drag and there is no hub wobble. Slightly too loose is better than too tight.
