

**Melco Tools**  
When only the best will do

**Melco "Monster" Lug Wrenches**

Comes as lug wrench and extension bar for more compact storage.

Big 1" diameter steel wrench, almost 4 feet long when assembled with extension bar.

Fits 15/16" lug nuts for early series IIA HDW/4/E  
Fits 1-1/16" lug nuts for late IIA, III HDW/5/E

Extension bar HDW/4/E.H  
(fits either wrench above)

**King Dick Whitworth Tools**

Have you noticed that none of your wrenches fit your Series Land Rover transmission or transfer case? That some bolts on the axle housing are just a little off for either American or Metric wrenches? That's because the factory used British Standard hardware.

King Dick manufactures professional quality chrome vanadium wrenches. These are the best quality Whitworth wrenches available anywhere.

King Dick 7 piece combination set 383-108  
(1/8" to 1/2") Special order item

**Highest Quality Professional Tools that will not let you down**

Melco 'T' wrench for late SIIA & SIII with 1-1/16 lug nuts. Does not fit the earlier double ended lug nuts

SWL-8

**Whitworth wrench size is the thread diameter and not the width of the bolt head like American wrenches.**

King Dick 3/8" drive 7 piece socket set 381-608  
(1/8" to 1/2") Special order item

**Hub Nut Socket**

The right tool for removing and replacing both front and rear hub nuts. Made by Melco of Sheffield England

Hub nut socket TBS.89

**Clutch Alignment Tool**

There are few things harder than trying to slide a gearbox home when the clutch disc is misaligned.
